autogas systems

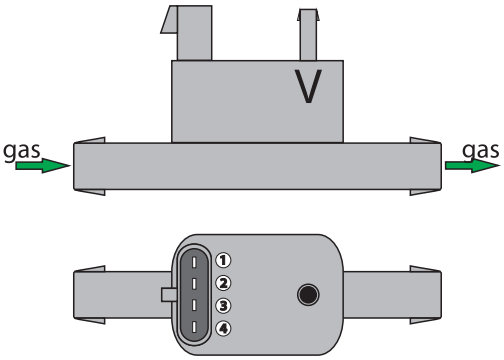

Pressure sensor **PSCCT-5-D** - no more in production

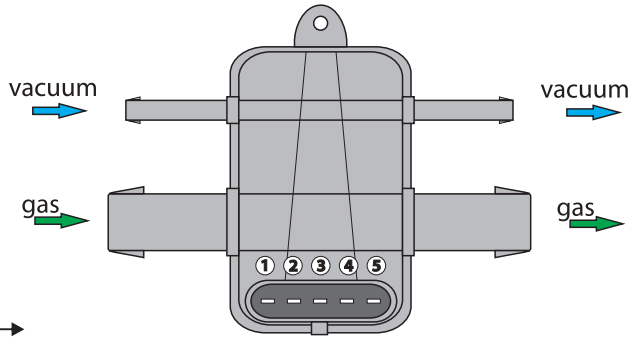

connector to sensor
(from harness side)

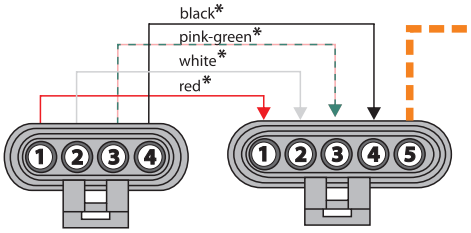

Possible change for PSCCT-6-D

Sensor **PSCCT-6-D** mounted on the gas line between gas filter and injectors

Connect right pin from old to new connector
(from harness side)

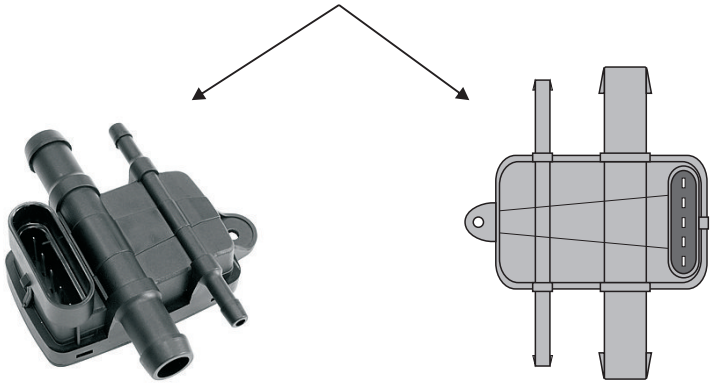

Extra analog connection

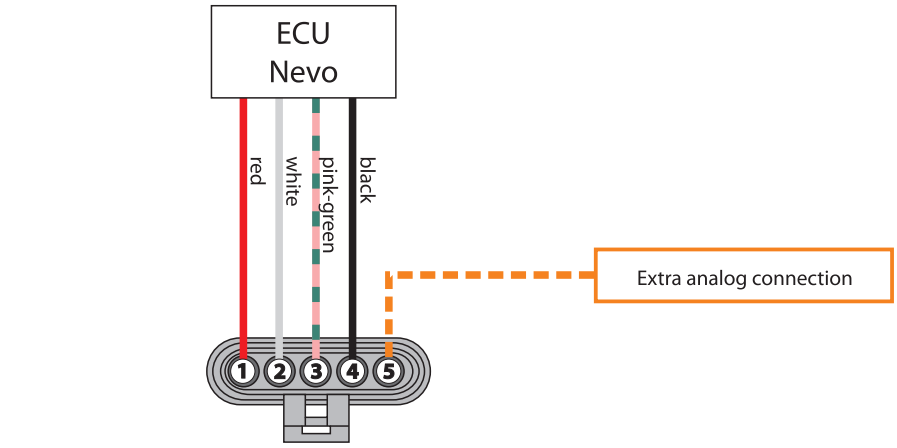

Need to change also connector right for newer version of sensor

In the Nevo software should be choosen sensor
PS-CCT 5-D / PS-CCT6-D
